Cayman Brac is the middle sister of the three Cayman Islands. It is a coral island surrounded by reef with a population of about 2500 residents. It has changed very little since it was discovered in 1503 by Christopher Columbus. Despite its history of pirate adventure and hidden treasure, it remains a peaceful quiet hideaway not only for divers and snorkelers, but also for sports fishermen, bird watchers, rock climbers, and those who just want to relax. The Brac retains the distinct charm of the Caribbean of many years ago. The quiet of the streets is broken only by friendly greetings and welcomes for visiting tourists on their Cayman Vacation. On the bluff, cattle are tended and locals utilize the land for vegetable crops. The natural vegetation of the island includes many tropical plants and fruit trees - mango and papaya - as well as beautiful wild orchids. Rated as a premier worldwide diving destination by leading dive magazines, Cayman Brac is recognized for the unspoiled natural beauty of its spectacular marine environment. Much of its coral reef has been protected for future generations to enjoy by its designation as a marine park by the Cayman Marine Conservation Laws. Please note there is no shore diving at this resort. Join us on this special trip!
